📁 PROJECTS

Aashish-Textoriu [🔗](#)

Responsive Web Application for Data Visualization

- Developed a responsive website showcasing clothing from top brands like Siyaram and Raymond.
- Implemented semantic HTML, CSS (Flexbox & Grid), and modern JavaScript for interactive UI.
- Integrated Bootstrap and Tailwind CSS for sleek design and customization.
- Focused on responsive design to ensure smooth user experience across devices.

Library [🔗](#)

Library-Management-System

- This project is a library management system with separate login access for admin and users
- Admin can add, delete, and view books, manage members, and track issued books and fines.
- Users can log in to browse and view available books only.

Shark-Tank [🔗](#)

Startup Management Web Application

- This is a Shark Tank-style pitch management application The app allows the admin to add new pitches, update existing ones, and delete unwanted pitches.
- Sorting pitches by price (low to high / high to low) •Filtering pitches by category (Food, Electronics, Personal Care)
- Interactive cards displaying pitch details like title, founder, category, image, and price
